

Bright Thinker's curriculum is compatible with most hardware, browsers, and operating systems.

**Bright Thinker curriculum is most compatible with the following web browser:**

- Chrome (latest 2 versions)

**You may experience broken images, interactives not working properly, and content not loading in the following browsers: \*Especially K-2**

- Mozilla Firefox (latest 2 versions)
- Apple Safari (latest 2 versions)
- Microsoft Edge (latest 2 versions)

**\*Some older generation iPads do not hold a memory load large enough to run all media pieces for some of the K-2 courses. We have found K-2 Phonics and Spelling to be the most media intensive and problematic for some iPads. This is not true for all iPads.**

**Screen Size :**

- Minimum width of 1024px

**Data Limits within BrightThinker :**

Content type	Upload Limit	Details
Import course or Common Cartridge	400MB	No individual file in the import can exceed 400MB.
Course resource	400MB	Per upload.
Announcement	100MB	Per upload.
Blog	100MB	Per upload.
Student submission	100MB	Per upload.
Teacher response	100MB	Per upload.
Peer response	100MB	Per upload.
Wiki page	100MB	Per upload.

### **A note for chromebook users:**

The Chromebook "shelf" (similar to the Windows taskbar) can block elements near the bottom of a webpage. If this occurs, students may report the lower elements of the page to be missing, however, enabling the "Autohide shelf" setting on Chromebooks resolves the issue of the elements being blocked.

**For more information:** [Customize your computer's shelf - Chromebook Help](#)
